

Inspection Conveyor with Lift

MODEL # 14100

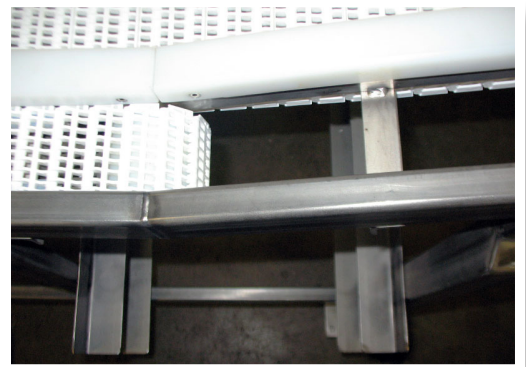

Our inspection conveyor, designed with a low conveyor height, eliminates the need for workers to stand on a platform during inspection. The conveyor lifts the berries to the height of the hopper and comes equipped with trash conveyors on each side to carry away discarded berries

Conveyor available in Flat or Elevating / Belt available in wire or solid top

Our inspection conveyors come with lug racks, which make collecting debris and discarded berries clean and easy

Available Options

- Casters
- Wire or solid top belt (both options shown)
- Telescopic leg height adjustment
- Optional variable speed drive
